Important notice concerning disclosure of material information

We take this opportunity to remind you that you owe a duty to make a fair presentation of the risk to the insurer. You have a duty to disclose to the insurer every material circumstance which you know or ought to know after a reasonable search or which is sufficient to put the insurer on notice that it needs to make further enquiries for the purpose of revealing those material circumstances. In addition, you have a duty to disclose information in a clear and accessible manner.

A circumstance is material if it would influence a prudent insurers judgment in determining whether to take the risk and, if so, on what terms. Failure to disclose a material circumstance may entitle an insurer to:

- in some circumstances, avoid the policy from inception and in this event any claims under the policy would not be paid;
- impose different terms on your cover; and/or
- reduce the amount of any claim payable.

This duty applies:

- before your cover is placed;
- when it is renewed; and
- at any time that it is varied.

Declaration

Duty to make a fair presentation of the risk/disclose material information

From 12 August 2016, the duty of disclosure for commercial insurance contracts changed with the implementation of the Insurance Act 2015 ("The Act"). For risks incepting or renewing on or after 12 August 2016, you have a duty to make "a fair presentation of the risk". To meet this duty, you need to disclose all material information to insurers which is known to you (or which ought to be known to you). Information is material if it would influence the judgement of a prudent insurer in establishing the premium or determining whether to underwrite the risk and, if so, on what terms. Material information does not necessarily have to actually increase the risk of the insurance under consideration.

I/We declare that the answers to the questions in this proposal form are true and accurate having consulted with all partners or directors and other persons involved in the management of the applicant firm.

This application must be signed by a corporate officer with authority to sign on the applicant's behalf.

I/We understand that the information provided will be used in deciding whether the insurer will accept the application, the terms of any policy provided and the price charged by the insurer for the risk.
